Sustainable Ballard Festival

For the 7th year in a row, PSCCU is proud to be one of the sponsors of the 16th Annual Sustainable Ballard Festival.

The event will take place on September 28, from 11am-4pm at the Ballard Commons Park. Eclectic, artsy, earthy, urban and committed to a better future... you'll find all this and more as you encounter creativity, passion and community while learning about daily practices and big steps toward more sustainable living.

All Ballard neighbors and friends are welcome to become more connected with each other by participating in Sustainable Ballard activities.

Solar Development
Last week the Renewable Energy Extension Act, a 5-year extension of the 30% Investment Tax Credit (ITC) was filed in both the US House (HR 3961) and Senate (S 2289) by Senator Catherine Cortez Masto (D-NV) and Representatives Mike Thompson (D-CA), Paul Cook (R-CA), and Brian Fitzpatrick (R-PA).

The ITC has helped grow US solar deployment by more than 10,000% since it was first passed by a Republican-led Congress in 2005, resulting in hundreds of thousands of new jobs and more than $140 billion in private investment.

Here’s how you can support the ITC extension:

Send a postcard to defend the ITC using I Love My Solar, a new organizing effort brought to us by Vote Solar and Solar United Neighbors. The platform allows you and your customers to upload pictures of solar with people and send a printed postcard to members of Congress. Customize it with your message and everything is taken care of for you, including the cost. Encourage your team members, and your new and existing customers to act now.

SIW will be asking Washington’s congressional delegation to sign on as co-sponsors of the legislation.

Thanks for helping #DefendtheITC!
